

Do You Have A Passion To
**see more women serve on
corporate boards in our region?**

Do You Want To Connect With
**other women who share
this same passion?**

If so, we need your help!

Please consider joining the WIT Corporate Board Committee, which plans and runs The Leadership Foundry. The Leadership Foundry is a DC-based program that helps prepare executive women for corporate board service through training and networking.

By volunteering with the committee, you will join a community of like-minded individuals who are working hard to advocate for more women to serve on corporate boards. Not only will you be helping to advance the cause, you will also expand your network and learn more about board service—all while having fun working with a great group of people!

There are many volunteer opportunities currently available. We are seeking help with: partnerships, sponsorships, events, candidate sourcing, media/public relations, publications, marketing, program curriculum and the alumni group networking.

To volunteer for the committee or for more information, please contact:

Julie Bloecher, Chair
